

Alpha2, 6-Sialyltransferase (Pd26ST)

Product Information

Cat#	DIA-628
Descriptions	Alpha2, 6-sialyltransferase (Pd26ST) achieves high-efficiency α -2,6 sialylation modification on glycan terminals, supports uniform glycosylation remodeling of antibody drugs, and is applied in sialylated glycoprotein preparation and quality identification.
Applications	Alpha2, 6-sialyltransferase (Pd26ST) is widely utilized in antibody drug glycosylation quality detection kits and sialylation modification assay reagent development.
CAS No.	9075-81-4
Enzyme Commission Number	EC 2.4.99.1
Package	1 U, 5 U, 25 U
