

Cytosine Base Editor, GMP and Mutating

Product Information

Cat#	CAS-0907
Source	E.coli
Description	Single-base editing; Inducing a premature termination codon (PTC) to knock out the target gene.; Mutating alternative splicing sites (or variable splicing sites) to knock out the target gene.
Storage	Dry ice shipping, -80°C storage, avoid freeze-thaw
Purity	≥ 80%
Buffer	30 mM Tris, 300 mM NaCl, 0.1 mM EDTA, 1 mM DTT, 50% Glycerol, pH 8.0
Appearance	Liquid
Molecular Weight	210.14 kDa
Concentration	10 mg/ml
Grade	GMP Grade
