

## Soil Beta-Glucosidase/Cellobiosidase Assay Kit (Spectrophotometric Method)

### Product Information

<b>Cat#</b>	Kit-022
<b>Description</b>	A spectrophotometric assay kit for quantitative determination of soil $\beta$ -glucosidase and cellobiosidase activities, key enzymes involved in cellulose and organic carbon degradation.
<b>Storage</b>	-20 °C
<b>Applications</b>	Soil carbon cycling studies Evaluation of microbial decomposition activity Soil fertility and ecosystem function assessment
<b>Notes</b>	Shelf life: 3 Months
