

## **Soil Cellulase (S-CL) Activity Assay Kit (Spectrophotometric Method)**

### **Product Information**

<b>Cat#</b>	Kit-026
<b>Description</b>	A spectrophotometric assay kit for determination of soil cellulase activity, indicating cellulose degradation capacity.
<b>Storage</b>	2–8 °C
<b>Applications</b>	Organic matter decomposition studies Soil carbon turnover research Composting and residue management evaluation
<b>Notes</b>	Shelf life: 3 Months
