Diagnostic Enzymes

UniPeak U+ One Step RT-qPCR SYBR Green Kit

Product Information

Cat#	ENZD-RT18
Specification	250 rxns
Applications	Gene Quantification; Gene Expression Analysis; Virus Detection
Description	One-step SYBR Green RT-qPCR reagent with high sensitivity and specificity. Contains a UDG anti-contamination system and gDNA Wiper Mix to reduce genomic contamination, and comes with a universal ROX reference dye, compatible with mainstream qPCR instruments.
Features	<ol style="list-style-type: none">1. Excellent performance: High sensitivity and specificity, compatible with more systems for amplification.2. Anti-contamination: Contains dUTP/UDG anti-contamination system, effectively preventing contamination of amplification products.3. gDNA clearance: Provides a gDNA clearance module to avoid genomic DNA residues.
Quality Control	High sensitivity and specificity UDG anti-contamination system added
Components	5x gDNA Wiper Mix 2 x One step SYBR Green Master Mix
Shipping and Storage Conditions	Store at -30 ~ -15°C, transport at ≤0°C. 2 × One Step SYBR Green Master Mix store at -30 ~ -15°C in the dark.
