Diagnostic Enzymes

Creatine Phosphokinase from Porcine Heart

Product Information

Cat#	TRA-014
Specification	5KU
Description	Creatine Phosphokinase derived from porcine heart is used for creatine kinase extraction and the development of diagnostic reagents for diseases such as myocardial infarction.
Applications	For serum glucose and creatine kinase (CK) testing.
CAS	9001-15-4
Form	White or off-white flakes
Activity	> 300 U/mg
Storage	-20°C
