

Creative Enzymes

Diagnostic Enzymes

Glucokinase (GLCK)

Product Information

Cat#	TRA-039
Description	Glucose kinase exhibits high affinity for glucose and is utilized in studies of blood glucose homeostasis and the development of novel diagnostic methods.
Applications	This enzyme is primarily used in the R&D and bulk preparation of creatine kinase detection reagents.
CAS No.	9001-36-9
Form	White freeze-dried powder
Activity	≥ 50 U/mg
Molecular Weight	35 kDa
