

Deoxyribonuclease B, Recombinant

Product Information

Cat#	NATE-1153
Abbr	DNase B, Recombinant
Alias	DNase B; DNASE1
Similar	DNASE1
Source	Escherichia coli
Description	Deoxyribonuclease B (DNase B) is one of several extracellular enzymes produced by group A beta-hemolytic streptococci. Since DNase B is produced extensively by group A serotypes and is not produced in significant amounts by other serological groups (C and G), anti-DNase B is a reliable streptococcal antibody test for both skin and throat infections.
Applications	Used in the formulation of anti-DNase B assays which are used in the diagnosis of group A Streptococcal based illnesses.
